Absolutely essential study book. It normally fails to price excessive. I realized this ebook from my dad and i encouraged this publication to find out.

GAO found that: (1) USDA has identified opportunities to significantly reduce telecommunications costs by consolidating and optimizing its FTS 2000 services, but it has not acted on all the identified opportunities and is wasting millions of dollars each year; (2) USDA field offices are failing to coordinate their FTS 2000 acquisitions and are often purchasing redundant systems; (3) USDA could save up to \$10 million a year if its field offices consolidate and optimize FTS 2000 services; (4) the USDA Office of Information Resources Management (OIRM) has not effectively carried out its responsibility to reduce telecommunications costs; (5) some USDA agencies are independently consolidating and optimizing FTS 2000 services and reducing telecommunication costs; (6) senior USDA officials state that leadership transitions have made it difficult for OIRM to implement FTS 2000 consolidation plans; and (7) although USDA is reducing and consolidating its field offices, it has no operational plan or time frame for consolidating and optimizing telecommunications at the centers or to ensure that FTS 2000 is cost-effectively used.
