Reviews

This publication may be worth purchasing. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

Date :2006-09-01 version 1 This material is shortage of skilled vocational education and training project personnel training one series of textbooks. The materials to MCS-51 series microcontroller-based. pay attention to introduction and application of both principles. and from a practical perspective on the contents of microcontroller applications. In my many years in single-chip application technology teaching and research. trying to better answer to the students. What is the single-chip microcontroller to learn how to apply the single-chip. these three questions. so that students learn the material. the general principles of both the master microcontroller. but also master microcontroller design skills. but also with a large number of examples in the book to grasp general microcomputer application system design. especially the development of single-chip I will own monitoring system to break down each chapter of the hands. the reader after the completion of each chapter the hands. to consolidate and improve the theory of practical ability. After completing this textbook. a successful product to show in front of the reader. so that students will go to work soon developed into the role of single-chip applications. In order to facilitate the organization of teaching. the teaching materials organized in the order by step. The textbook is divided into 12 chapters. as follows: basic knowledge of microcontrollers. microcontroller hardware architecture. instruction set. assembly language. timer counter. serial interface. interrupt system. external memory expansion. expansion parallel interface. keyboard display voice interface. I2C bus . common drive unit interface technology. covering the development of a small microcomputer control system of all knowledge. This book can be used as Vocational and Technical College. the secondary vocational and technical...
