Brand New Book ***** Print on Demand *****.Accelerated learning is an advanced learning approach that is used in many organizations today including learning institutions and corporate entities. It is research based and includes a variety of media and techniques. This is because people have discovered that accelerated learning uses proven techniques that enable them to design programs faster, improve measurable learning and enhance the productivity and creativity of employees. In order to be successful in accelerated learning, you need both a skeptical approach and an open mind. Healthy skepticism will enable you to rethink your assumptions to learning and at the same time enable you to maintain a balanced head even as you crunch the dazzling techniques and methods in the accelerated learning process. Openness on the other hand will help you to appreciate that learning is a continual process and no...
