National Academy Press. Hardcover. Book Condition: New. Hardcover. 256 pages. Dimensions: 9.1in. x 6.1in. x 1.1in. Walk into any first-period high school classroom and it and 39s obvious: teenagers are exhausted. Sleep deprivation is an epidemic as widespread as obesity and just as damaging. Fortunately, science has answers and Dr. Helene Emsellem has solutions that all parents can use. Affecting the lives of more than 41 million adolescents in the United States alone, sleep deprivation is a chronic problem for kids today. We know this intuitively as we watch teenagers frantically juggle a hectic social calendar with the overwhelming demands of school, work, and chores. School performance around the country is suffering but it and 39s not just grades that are at risk. Sleep deprivation has been found to affect nearly every aspect of a teenager and 39s life, from emotional stability and behavioral issues to physical well-being and the potential for drug and alcohol abuse. For years, we and 39ve blamed many of these adolescent characteristics on the natural maturing process or changing hormones. And while chemicals do surge through the body creating strong effects, sleep the right amount and the right kind has now been targeted for its prime importance in overall success and well-being. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Hardcover.
