Book Condition: New. Publisher/Verlag: Physica-Verlag | The volume collects a selection of papers of the 21st EURO Working Group on Financial Modelling. The papers in this book provide a representative, though not complete, sample of the current scientific activity in the field of quantitative finance. Such activity is not only theoretical but also practical, because it tries to combine theoretic analyses with empirical evidence. The topics deal with corporate finance, asset price analysis, portfolio management, decision theory, international exchange markets and financial derivatives. It is important to note the presence of algorithms, methods and models, helpful in the real activities of a decision maker such as performance evaluations and scenarios identifications in portfolio models, how to measure bank efficiency, and how to realize an efficient diversification of international investments. | The present volume collects a selection of revised papers which were presented at the 21st Euro Working Group on Financial Modelling Meeting, held in Venice (Italy), on October 29-31, 1997. The Working Group was founded in September 1986 in Lisbon with the objective of providing an international forum for the exchange of information and experience; encouraging research and interaction between financial economic theory and practice of financial decision making, as well as circulating information among universities and financial institutions throughout Europe. The attendance to the Meeting was large and highly qualified. More than 80 participants, coming from 20 different Countries debated on 5 invited lectures and 40 communications in regular sessions. The sessions were located at the Island of San Servolo, on the Venetian lagoon, just in front of the Doges Palace. San Servolo Island is a natural oasis, in the midst of a unique urban setting, offering great relaxation in a peaceful park and a panoramic view of Venice. The friendly atmosphere added great benefit to the...
