Book Condition: New. Publisher/Verlag: Morgan Kaufmann | Theory, Algorithms, and Applications | Visual Computing for Medicine, Second Edition, offers cutting-edge visualization techniques and their applications in medical diagnosis, education, and treatment. The book includes algorithms, applications, and ideas on achieving reliability of results and clinical evaluation of the techniques covered. Preim and Botha illustrate visualization techniques from research, but also cover the information required to solve practical clinical problems. They base the book on several years of combined teaching and research experience. This new edition includes six new chapters on treatment planning, guidance and training; an updated appendix on software support for visual computing for medicine; and a new global structure that better classifies and explains the major lines of work in the field. Complete guide to visual computing in medicine, fully revamped and updated with new developments in the field Illustrated in full color Includes a companion website offering additional content for professors, source code, algorithms, tutorials, videos, exercises, lessons, and more | All chapters are significantly updated; From part IV onwards the top-level structure has been reorganized and improved; The new chapters highlighted. Introduction Part I : Acquisition, Analysis and Interpretation of Medical Volume Data Acquisition of Medical Image Data Perception and Interpretation of Medical Image Data Medical Volume Data in Clinical Practice--Has to be extended beyond radiology. Pathology, surgery, tumor board, patient consultation, intraoperative use Image Analysis--More focus on Interactive segmentation, random walker, graph cuts and mass-spring models, also consider/touch GPU implementation. Part II: Volume Visualization Fundamentals of Volume Visualization Indirect Volume Visualization Direct Volume Visualization Advanced Direct Volume Visualization (as contributing author: Timo Ropinski) Shading, Depth-Enhancement, Multimodal Rendering Part III : Exploration of Medical Volume Data Transfer Function Specification Clipping, Cutting and Virtual Resection Measurements in Medical Visualization Part IV : Advanced Visualization Techniques Visualization of...
